Listing of Claims:

Please amend the claims as indicated in the following listing of claims:

1. (Currently Amended) A protective liner for a vehicle storage area of predetermined shape and size comprising:

a flexible and substantially impermeable floor having a perimeter and substantially forming a plane;

a flexible and substantially impermeable sleeve surrounding and affixed to said perimeter of said floor;

a flexible and substantially impermeable wall affixed to said sleeve wherein the wall is substantially normal to the plane formed by the floor; and

a flexible and coilable resilient frame captured within said sleeve.

2. (Previously Presented) The invention of claim 1, having a perimeter shape and size, wherein said perimeter shape and size are substantially the same as said shape and said size of said vehicle storage area.

3-6. (Canceled)

7. (Currently Amended) A protective liner for a vehicle storage area of predetermined shape and size comprising:

a flexible and substantially impermeable floor having a perimeter;

a flexible and substantially impermeable sleeve surrounding and affixed to said perimeter of said floor;

a flexible, upright, and substantially impermeable wall affixed to said sleeve;

a flexible and coilable resilient frame captured within said sleeve; and

said liner further comprising a fastener means, whereby said liner is removably secured to said vehicle storage area.

8-9. (Canceled)

10. (Previously Presented) The invention of claim 1, further comprising:

the liner having a collapsed orientation and an uncollapsed orientation and a container for protecting and transporting the liner in the collapsed orientation.

11. (Previously Presented) The invention of claim 10, further comprising:

the container having a closure.

12. (Previously Presented) The invention of claim 10, further comprising:

the container having at least one carrying strap.

13. (Previously Presented) The invention of claim 7, having a perimeter shape and size, wherein said perimeter shape and size are substantially the same as said shape and said size of said vehicle storage area.

14. (Previously Presented) The invention of claim 7, further comprising:

the liner having a collapsed orientation and an uncollapsed orientation and a container for protecting and transporting the liner in the collapsed orientation.

15. (Previously Presented) The invention of claim 14, further comprising:

the container having a closure.

16. (Previously Presented) The invention of claim 14, further comprising:

the container having at least one carrying strap.

17. (Currently Amended) A protective liner for a vehicle storage area of predetermined shape and size comprising:

a flexible and substantially impermeable floor having a perimeter;

a flexible and substantially impermeable sleeve surrounding and affixed to said perimeter of said floor;

a flexible, upright, and substantially impermeable wall affixed to said sleeve;

a flexible and coilable resilient frame captured within said sleeve;

a fastener for removably attaching the liner to a vehicle storage area;

the liner having a collapsed orientation and an uncollapsed orientation;

a container for protecting and transporting the liner in the collapsed orientation;

the container having a closure and two carrying straps; and

the liner having a perimeter shape and size in the uncollapsed orientation, wherein said perimeter shape and size are substantially the same as said shape and said size of said vehicle storage area.
